

Project#2: The Decisive Moment - Description

Critique Date - 10/18/17 (Wed)

“Photographers deal in things which are continually vanishing and when they have vanished there is no contrivance on earth which can make them come back again.”

- Henri Cartier-Bresson

Conceptual Requirements:

For this assignment, shoot a series of pictures using Henri Cartier-Bresson’s philosophy of the Decisive Moment. Have your camera with you and ready to shoot at all times. Your subjects can and should vary widely, so open yourself up to your intuition, your reflexes, and the possibility that an incredible moment can unfold anywhere and at any time!

Technical Requirements:

Since this project largely depends on your ability to react quickly, use your camera hand-held and with relatively fast shutter speeds. There will be little time to focus and adjust your exposure settings & focus, you can use the pre-set “range-focusing” technique shown in class.

Shoot in bright daylight perhaps on a busy street with lots of pedestrians or action of some kind. The more light and movement you have, the more options you’ll have. Study the following examples to see how range focusing can affect depth of field when using a prime lens.

f4, shallow D.O.F
focus range: **30'-infinity**

f22, long D.O.F
focus range: **6'-infinity**

f8, medium D.O.F
focus range: **8'-15'**

f8, medium D.O.F
focus range: **15'-infinity**

Deliverables leading up to Critique #2 (See syllabus for pacing and due dates)	Possible
Adams Reading Discussion	2
9 Rolls Shot in the style of the “Decisive Moment”	9
Contact sheets for all photographs shot	9
6 Good Prints	6
Project Quality & Presentation	2
Total Score for Deliverables	28

Course Attendance Policy (as per syllabus):

TARDIES, etc.	COUNT AS:
1 Tardy	½ of an Absence
1 Early Class Departure	½ of an Absence
Coming to Class Unprepared	½ of an Absence

ABSENCES	COUNT AS:
1 Absence	Course Grade not affected
2 Absences *	Course Grade is no greater than B+
3 Absences *	Automatic F (Course Failure)
